To Whom It May Concern:

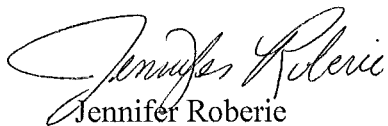

I am writing this letter on behalf of Langley Homes. We recently purchased a custom built home from the Langley's and couldn't be more pleased!

The Langley's are professional and confident about the homes they build and yet they are so easy to talk to. I really felt they listened to our requests and sincerely cared about what was important to us. Ricky, Ann and Wade take pride in their company and it definitely shows in the high quality homes they build. Their knowledge and reputation for building a great home is one of the reasons we chose them.

The construction phase of our home went very smoothly. The house was completed in a timely manner and all phases of construction went well. Ricky and Wade hire the best contractors for the job and make sure everything is done right. The contractors were very friendly and had no problem with us being there and asking questions along the way.

I would highly recommend Langley Homes to anyone interested in building a high quality custom home. You couldn't ask for nicer people to build your dream home!

Sincerely,

Jennifer Roberie
